Urban Cube Residence

A modular, multi-level structure with cubic volumes and bold shading. Designed for urban living with potential for mixed-use space and rooftop access.

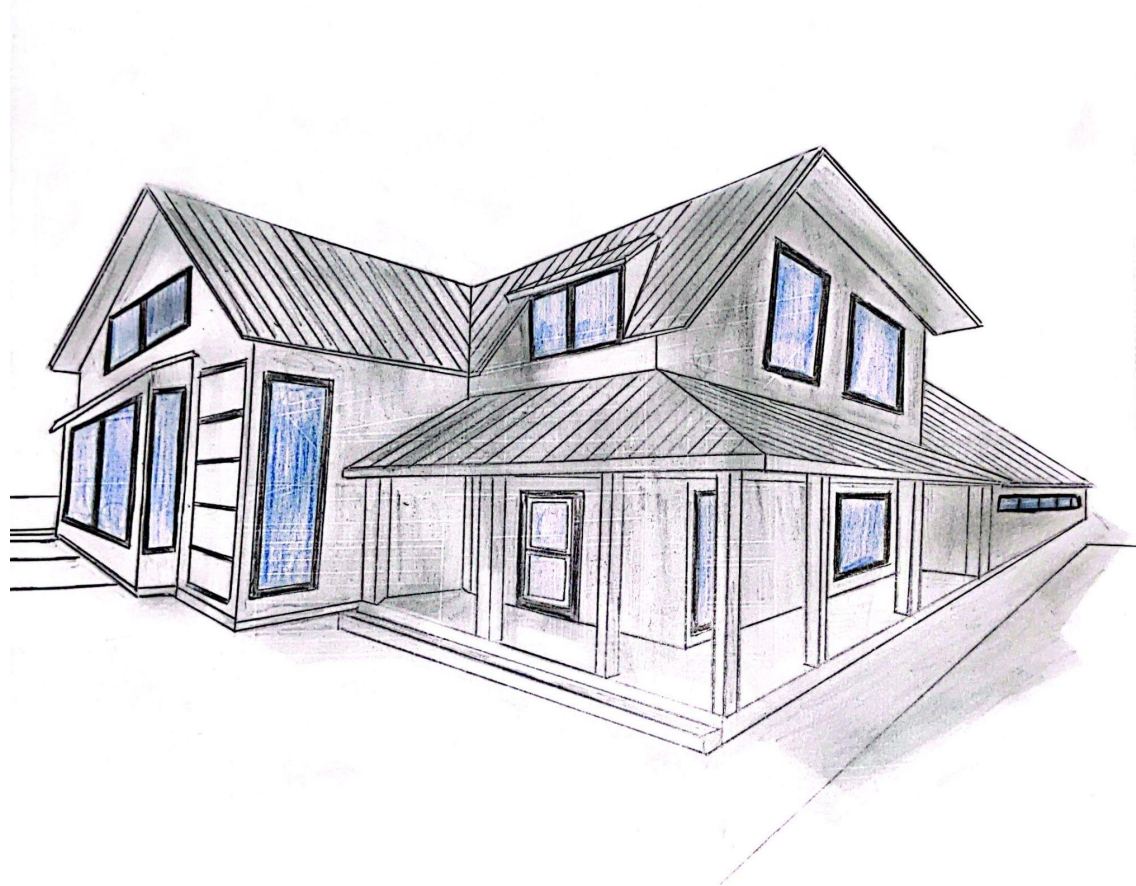

Contemporary House

A clean front-view architectural drawing of a modern two-story house. This design features a sloped roofline, large windows, stone detailing, and a second-floor balcony. The sketch highlights balance between natural materials and sleek geometry, giving the home a fresh, high-end suburban feel.

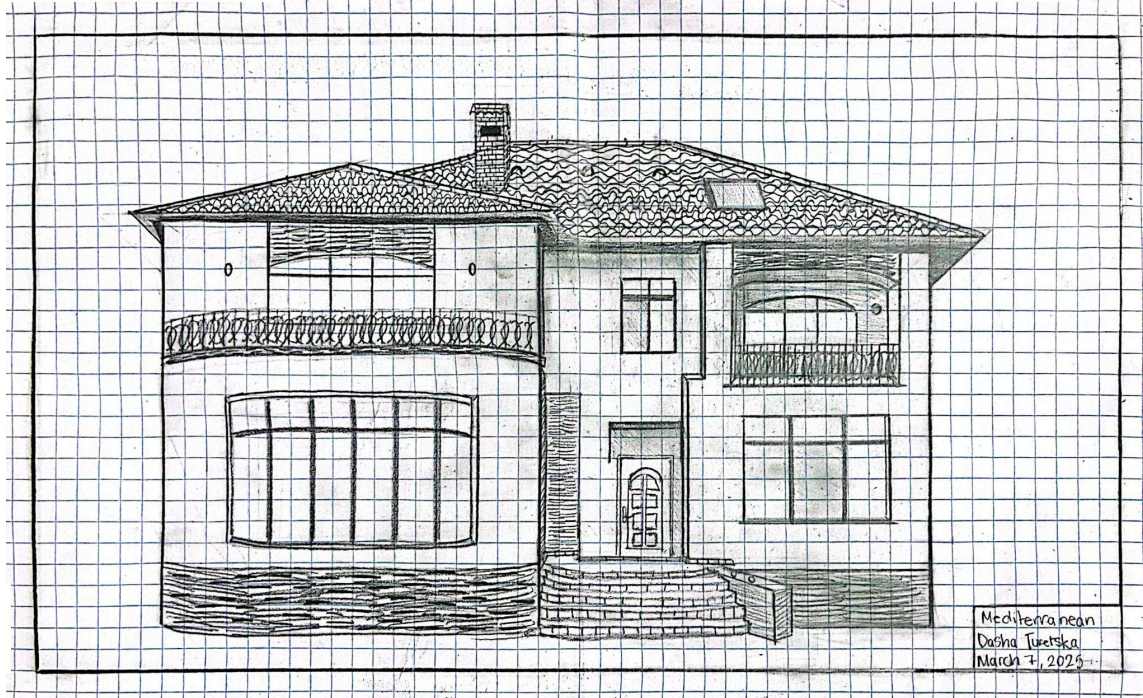

Farmhouse

A two-point perspective drawing of a modern farmhouse. The design includes a pitched metal roof, wide porch, and simple siding. Blue-toned windows and soft shading add depth and realism. The house blends traditional farmhouse structure with modern finishes, ideal for a rural or suburban setting.

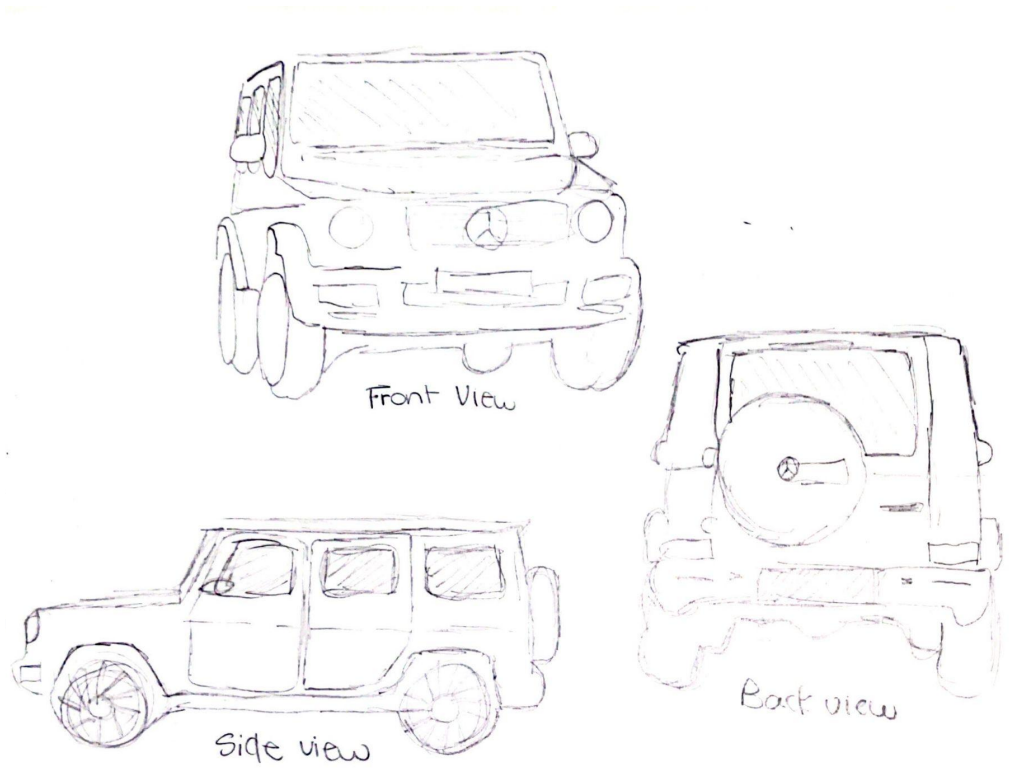

Mediterranean House

This drawing of a house, showcases a Mediterranean design. The structure displays a blend of sleek lines and curves, highlighted by prominent features such as large windows and decorative balcony railings. The roof, constructed with textured tiles, adds an authentic touch to the overall appearance.

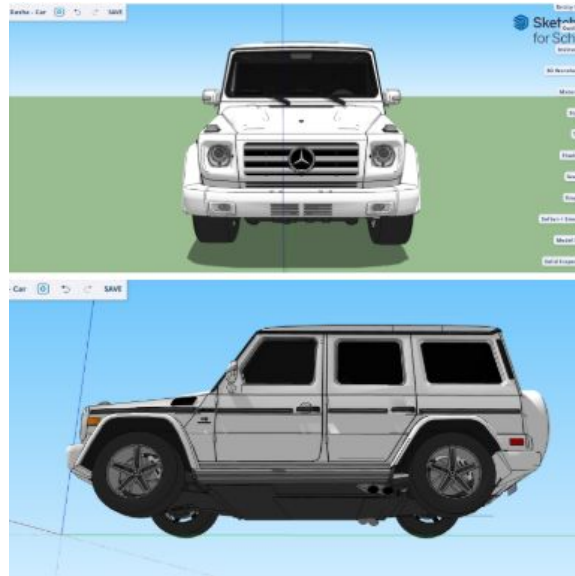

Quick Car Sketch

A simple pencil sketch of a Mercedes-Benz G-Wagon. Focused on capturing the basic shape and key features of the car, like its boxy frame and front grill.

SketchUp - 3D Car

A 3D model of a Mercedes-Benz G-Class SUV created using SketchUp, showcasing detailed front, rear, side, and angled views. This project demonstrates skills in digital modeling, proportion accuracy, and visual presentation.

Final - 3D Car

A realistic 3D model of a Mercedes G-Wagon designed in SketchUp. Includes front, side, rear, and perspective views to highlight the vehicle's structure and detailing.
